*Occupational codes ending with -0000 designate a Major occupational group.*

*\* Wages are presented in terms of both hourly wages (rounded to nearest .05) and yearly salary (rounded to nearest 10.00). Converting yearly to hourly (or vice-versa) is based on 2,080 hours per year (40 hrs./wk. times 52 wks./yr.).*

*\*\* Occupation denoted by a double asterisk do not normally work 2,080 hours per year and therefore there is no equivalent hourly wage. Examples include many teaching occupations, musicians, producers/directors, pilots and airline attendants, to name a few.*

*The mean wage equals the weighted average wage. There will be no wage data in instances where the mean's relative standard error is greater than 30%.*

*The 25th percentile equals the wage that 25% of the employees reported in the occupation made less than and 75% made more.*

*The 50th percentile equals the wage that 50% of the employees reported in the occupation made less than and 50% made more.*

**NEW JERSEY DEPARTMENT OF LABOR AND WORKFORCE DEVELOPMENT

ALL INDUSTRIES COMBINED**

*See Footnotes at end of table.*

<b>Ind Code</b>	<b>Industry Description</b>	<b>Occ'l (SOC) Code</b>	<a href="#">Occupational Title (click here for definitions)</a>	<b>Est'd Empl.</b>	<b>Mean (Avg.) Hourly</b>	<b>Mean (Avg.) Salary</b>	<b>25th Pctile. Hourly</b>	<b>25th Pctile. Salary</b>	<b>50th Pctile. Hourly</b>	<b>50th Pctile. Salary</b>	<b>75th Pctile. Hourly</b>	<b>75th Pctile. Salary</b>	<b>Units</b>
-----------------	-----------------------------	-------------------------	---	--------------------	---------------------------	---------------------------	----------------------------	----------------------------	----------------------------	----------------------------	----------------------------	----------------------------	--------------

*The 75th percentile equals the wage that 75% of the employees reported in the occupation made less than and 25% made more.*

*When a 25th, 50th and/or 75th percentile column is blank (but there is a Mean Wage) the percentile is greater than \$80.00/hour or \$166,400/year and is therefore "Not Calculable" given the survey methodology.*

*Est'd Empl. (Estimated Employment) is not the reported employment for the corresponding occupation, but rather represents an estimate of the number of employees in that occupation in the defined geographic area and industries. This column will be blank in instances where the employment's relative standard error is greater than 50%.*

*The Units column represents the number of sampled companies that reported the occupation in the defined area and industry. Estimates of occupational wages and employment based on a relative few units are statistically less reliable than those based on a greater number of units.*
